moniCAM PM-One

Intraoral Camera

Meet the newest, thinnest, and most high-tech intraoral camera, PM-One. This intraoral camera not only can connect directly to smartphones and tablets using its built-in WiFi signal, but also can relay live images onto a TV screen through a HDMI cable. Instantly save full HD images and videos into the connected device, or straight into the microSD card. Another major highlight of PM-One is its QLF function, allowing for the early detection of tooth caries and plaque activity. Enjoy all these functions for up to 2 hours of uninterrupted use after fully charged.

Specifications:

● Resolution	2 megapixels
